2021 ANNUAL REPORT

As I step into this new role as the Executive Director of the HCA, I am reminded of why I pursued a career in the arts. While the individuals who interact with the Art Center may all be different, it's apparent that we all have one thing in common: we understand the importance of art in our lives. Whether we use it to escape, heal, express ourselves, process, communicate, or just add joy to the everyday, art is vital to a thriving community. At its core, art has the power to bring us together and feel connected, to feel human. As we continue to pivot during this time of uncertainty, I am thankful for those who have remained constant in their support of the arts, in big ways and small. I look forward to the possibilities of this next year, and am grateful for a community of art advocates to bolster our future.

Molly Rivera
Executive Director

Highlights from 2021

01.

What started as a response to Covid protocols back in 2020 transformed into a thriving program: Take Home Art Kits. These free monthly kits have been overwhelmingly popular. We are excited to continue this program, partnering with the Hutchinson Public Library to continue expanding our reach in the community.

02.

We had a strong lineup of artists participate in our Visual Arts Exhibition Series this year. From emerging artists to professionals, we featured work from nine artists representing an array of disciplines and concepts, and were grateful to host gallery talks and receptions in-person again!

03.

The gift shop has continued to expand, and we now feature the work of 25 local and regional artists, highlighting the talent and creativity in our area and providing the opportunity to support local artisans.

04.

While we were not able to resume our Annual Night for the Arts, we are hopeful for the coming year and grateful for the support of donors and organizations that helped reduce our financial loss.
